[The arrangements hereinafter described are subject to revision under the orders of the Secretary of State for India.]

1. The Royal Indian Engineering College is primarily maintained, under the orders of the Secretary of State for India in Council, for the education of candidates for the service of Government in the India Public Works, Telegraph, and Forest Departments; but it is open, to the extent of the accommodation available, to all persons desirous of following the course of study pursued in it.

India Forest Department Appointments.

2. The examination usually takes place towards the end of June, and candidates may undergo the written part of their examination in London, Edinburgh, or Dublin, or at any of the provincial centres at which the simultaneous examination of candidates for admission to the Royal Military College, Sandhurst, is to be held. A list of the probable centres may be obtained from the Civil Service Commissioners at any time after March 1895. The oral and practical parts of the examination will be held in London only.

3. The number of candidates to be selected annually varies according to the requirements of the Forest Service in India; the figures as regards each particular year will be advertised from time to time. *In 1895 there will be six appointments offered for competition. It is possible that after 1895 recruits for the Indian Forest Service will be selected from Cooper's Hill College students at the end of their first year's course of study.*

4. Candidates for the Indian Forest Department are selected under the following arrangements:—

(*a*) An applicant must be a natural-born British subject, and must be above 17 and under 20 years of age on the 1st June of the year in which he competes for an appointment. He must be unmarried, and if he marries before reaching India, he will forfeit his appointment.

(*b*) An applicant must send* to the Revenue Department of the India Office, on or before the 15th day of May of the year in which he proposes to compete:—

(1) His name and parentage, a certificate or other satisfactory evidence of the date of his birth, and the written consent of parent or guardian that his name should be recorded as a candidate.

(2) A statement of the places of education at which he may have been, accompanied by testimonials of good conduct during the last four years.

(*c*) Applicants will have to appear before a Medical Board † at the India Office, particular stress being laid upon good vision and hearing. A physical test will also be imposed, so as to ensure the selection of persons of active habits and powers of endurance.

---

* There is no form of application; the documents specified in clauses (1) and (2) should be enclosed in a covering letter addressed to the Secretary, Revenue Department, India Office, London.

† With a view to prevent parents and guardians from incurring the inconvenience and expense of preparing candidates who may be physically unfit for the Forest Service, it is suggested that, before any such preparation is begun, candidates be submitted to examination by the medical adviser of the family, or any other qualified medical practitioner, with regard to the following points:—

1. A weak constitution.
2. Defective vision.
3. Impaired hearing.
4. The existence of any congenital defect.

It is to be understood that this private examination is merely suggested to lessen the chances of disappointment, and that it is by no means intended to take the place of, or to influence in any way, the official examination.

On the subject of the standard of eyesight required for the Indian services, a pamphlet has been published, under the authority of the Secretary of State in Council, by Messrs. Churchill and Sons, 11 New Burlington Street.

(*d*) The applicants who have successfully passed the medical examination and the physical test, will be required to undergo an examination before the Civil Service Commissioners** in the following subjects†† (Classes I to III), marks being assigned as follows :—

CLASS I.—OBLIGATORY SUBJECTS.‡	Marks.

(*e*) From the competitors who attain the above-mentioned minima of marks in obligatory subjects, and satisfy the requisite conditions in other respects, the Secretary of State will select candidates in order of merit as probationers to enter the College, where they will be further trained for the Forest Service of India.

(*f*) If the full number of competent probationers required in any year cannot be obtained from the persons so examined, the Secretary of State reserves a discretion to fill up the deficiency by selecting any other person or persons who may satisfy the authorities of the College that he or they are properly qualified to become probationers for the Forest Service.

** A fee of 2*l*. is required from candidates at the written examination in London, and 3*l*. from candidates examined elsewhere. Candidates examined at a college or school will probably be required to pay a local fee (in order to defray the expenses of superintendence), as to which they should obtain early information from the college or school authorities. The fee payable to the Civil Service Commissioners must be paid by means of stamps of the specified amount. Instructions on this point will be issued to candidates about ten days before the examination.

†† Reprints of the papers set at previous examinations, together with tables of the marks assigned to the candidates, are published by the Civil Service Commissioners, and can be obtained through any bookseller. The price of each reprint is one shilling.

‡ Attention is invited to the appended Syllabus, giving further details regarding the extent and character of the examination.

5. The course of study for candidates for the Indian Forest Service extends over about three years, divided into seven terms and the period of study in foreign forests. During seven terms the candidates will prosecute their studies mainly at the College, and during the period of foreign study, which may last for five or six months, they will visit, under suitable supervision, such Continental forests as may be selected for the purpose. Excursions may also be made for purposes of instruction, both during term time and during part of the vacations.

6. Each annual session begins in September and is divided into three terms, with vacations of about four weeks at Christmas, two weeks at Easter, and eight weeks in the summer, except at the end of the visit to the Continent, when the vacation will be shorter.

7. A charge of 61*l.* is made for each of the seven terms spent at the College ; for the period of foreign study the charge is 150*l.* for each student. The amounts must be paid terminally in advance to the Bank of England for the first seven terms, and the amount due for the period of foreign study must be paid before the period begins. Receivable orders, with full directions as to the mode of payment, will be forwarded from the India Office to the parents or guardians shortly before the fees fall due. A student will not be allowed to come into residence or to start for his foreign study of forests until his fee has been paid.

8. A deposit of 5*l.* is required to be paid by each student on admission to the College, as caution money, to cover charges incurred by him for damage to books, instruments, &c., or any College bills outstanding on leaving the College. Any balance over and above such charges will be repaid. This deposit is to be paid with the fee for the first term, making the total payment on that occasion 66*l.*

9. The foregoing payments cover all charges for tuition, board according to the College tariff, lodging, with washing, up to a cost of 2*s.* a week, and ordinary medical attendance while in residence at the College. When students are on tour and during the course of practical instruction, whether in Great Britain or on the Continent, the Secretary of State will defray the expenses of (1) board, lodging, and washing (the maximum expenditure on such account being 10*s.* per diem), (2) travelling expenses, and (3) fees to local Forest Officers, &c.

Students are required to provide their own class books and drawing instruments. Drawing paper, drawing boards, and surveying instruments are provided by the College.

10. The prescribed course of study at present comprises the following subjects :—

I.—*Auxiliary Subjects.*

1. Geometrical Drawing.
2. Freehand Drawing.
3. Surveying.
4. Forest Engineering.
5. Accounts.
6. German.
7. Mechanics.
8. Physics.
9. Chemistry.
10. Geology and Mineralogy.
11. Entomology.
12. Botany.
13. Drill and Gymnastics.

II.—*Forestry,* theoretical and practical, in all its branches.

11. Every student is required to conform to the College rules, to exhibit due diligence in his studies throughout the course, and to give evidence of satisfactory progress in such manner as may be required, failing which, or in the event of serious misconduct, he will be liable to be removed from the College, or to be sent back from the foreign study, which may entail the loss of his appointment.

12. During the course of study, the proficiency of the students will be tested by periodical examinations, and on the termination of their studies there will be a final examination. Each student may also, at the discretion of the Secretary of State for India, be required to appear before the Medical Board at the expiration of the first year of residence at the College ; and should the result be unsatisfactory, he cannot claim to be allowed to complete the course.

13. The subjects enumerated in paragraph 10 are grouped in certain main branches of study,* and a fixed minimum of qualification is required in each branch and in the subjects taught during the forest tours, as well as a certain minimum for all branches taken together. Students who obtain these minima will receive the College diploma in Forestry.

* For details *see* Royal Indian Engineering College Calendar.

14. Candidates who have obtained this diploma and are found to be of sound constitution, and free from physical defects which would render them unsuitable for employment in the Forest Department (the final decision on which points will rest with the Secretary of State for India), will be appointed Assistant Conservators in the Forest Department of India in the order of their standing at the end of the final examination. They will be allowed, before leaving the College, to state their preference in respect to the Provinces to which they desire to be allotted; but the distribution will be made at the discretion of the Secretary of State for India, after consulting the President of the College and the Principal Professor of Forestry, to the several Provinces according to the needs of the public service. The distribution will be made on the understanding that officers are at all times liable to be transferred from one Province to another at the pleasure of the Government of India.

15. Within a month of his nomination as Assistant Conservator, each nominee must sign articles of agreement describing the terms and conditions of his appointment; he must embark for India when required to do so by the Secretary of State, and will be provided with a free passage. Failure to embark at the stated time will, in the absence of satisfactory explanation, lead to forfeiture of appointment.

16. The pay of an Assistant Conservator of Forests will begin from the date of arrival in India. Probationers who acquit themselves creditably during their course at Cooper's Hill College will begin on a salary of Rs. 350 a month. It will, however, rest with the President of the College, in consultation with the Principal Professor of Forestry, to decide whether any of the probationers, though they have obtained the College diploma in Forestry, have failed to deserve that rate of initial salary. Such probationers, if any, will begin on a salary of Rs. 250 a month, and this difference of salary will continue until the first departmental examination is passed in India.

17. Promotion, leave, and pension will be regulated by the rules of the Service for the time being. The more favourable pension rules have recently been extended to Forest officers appointed from England, who are thus placed on an equality with Public Works officers appointed from Cooper's Hill College. Any Forest Officer who has rendered not less than three years' approved service as head of his department has also been made eligible for an extra pension of Rs. 1,000 per annum. A copy of the Regulations relative to these matters can be seen on application either at the Library or the Record Department of the India Office; the principal rules, however, are contained in the Abstract of the Civil Service Regulations as given in the "India Office List" or the "India List" published, respectively, by Messrs. Harrison and Sons, 59 Pall Mall, and Messrs. W. H. Allen & Co., 13 Waterloo Place, S.W, either of which can be procured through any bookseller.

18. Every candidate, before proceeding to India, will be required to furnish to the President of the College satisfactory evidence of his competency in riding.

GENERAL RULES.

19. Chemical, physical, and botanical laboratories, a forestry museum, a forest nursery, a library, and gymnasium are attached to the College. Means are also provided for the practice of photography. Students making use of the laboratories are supplied with the needful apparatus.

20. The responsibility for the discipline and management of the College and for the superintendence of the studies is vested in the President, under the control of the Secretary of State for India.

21. The students are distributed in divisions under personal charge of one of the Professors or Instructors selected by the President, such tutor being responsible for exercising the proper degree of personal supervision over each student in his division, and for conducting necessary correspondence with the student's parents or guardians.

22. Each student residing in the College is provided with a separate room, and with fuel and light, also with the necessary attendance. Furniture and bedding are supplied by the College, but students are required to provide their own towels and bed linen. Meals are taken in hall. Wine and beer are not included in the ordinary fare, but can be obtained from the College cellar at fixed prices.

23. A chapel is attached to the College, which the students residing in the College are expected to attend, unless specially exempted.

24. Every student will be required to go through a course of gymnastics and also of military exercises, including the use of the rifle.

25. Students are required to wear academical dress under such regulations as may be prescribed from time to time.

Students not nominated for the Indian Forest Service, but desirous of obtaining a Diploma in Forestry from Cooper's Hill College.

26. Students not nominated for the Indian Forest Service may be received into the College as far as the available accommodation permits. Such students may pass through the course of instruction prescribed for the nominees of the Indian Forest Service as detailed above, or they may be permitted to participate in the instruction given in certain subjects only. On attaining the prescribed minima of marks in the several branches of study and in totals as laid down above, they will receive, as the case may require, either the College Diploma in Forestry or special certificates showing in what subjects they have followed the instruction, and with what result.

27. Candidates who desire to be admitted under paragraph 26 may submit the necessary application at any time, but not later than the 15th day of June of the year named for admission, except with the special permission of the President. The application must be made on the prescribed forms, which can be obtained from the Secretary of the College.

28. Candidates whose applications are found satisfactory as to character and in other respects will be required to undergo an examination, to be held at the College, about the last week in June of the year for admission. The object of the examination will be to ascertain whether the candidate is qualified to follow the course of instruction with advantage (or certain parts of it, as the case may be). Candidates who do not come up to the required standard will not be admitted to the College.

The President may dispense with the whole or any portion of this examination in the case of a candidate who produces an University diploma, or other similar certificate granted by a recognized examining body.

29. Candidates admitted to the College under paragraph 26, who propose to pass through the full prescribed course of study, will be required to pay the same fees in every respect as those paid by the nominees for the Indian Forest Service. Candidates who do not become resident, and are admitted only to certain subjects of study, will be required to pay the fees which may be fixed in each special case in consideration of the extent of their studies. The candidates of both classes will be required to abide by the general rules of the College.

FOREST EXAMINATION.

SYLLABUS.

CLASS I.

Mathematics.—The extent of the Examination will be as follows :—

(*a*) Algebra, up to and including the binomial theorem, the theory and use of logarithms ;

(*b*) Euclid, Books I to IV and VI ;

(*c*) Plane Trigonometry, up to and including solution of triangles, and mensuration.

English Composition.—The standard of positive merit will be looked for in logical arrangement of thought, and in accuracy and propriety of expression, but large deductions of marks will be made for faults of writing and spelling.

Candidates are also warned that, for similar faults in the use of the English language, similar deductions will be made from the marks obtained in the German papers in Class I.

German.—There will be translations of unseen passages from German into English, and from English into German ; the passages for translation will be taken, mainly, from standard authors, and a few simple questions may be asked, on the passages set, as to the structure and character of the language, and allusions of obvious and general interest. The *vivâ voce* examination will include dictation.

CLASS II.

ANY TWO SUBJECTS MAY BE TAKEN UP.

Higher Mathematics.—*⁎* In all the following subjects great importance will be attached to accuracy in numerical results.

Further questions and problems on the subjects of the Examination in Mathematics, Class I.

And in addition—

Statics: The equilibrium of forces acting in one plane and of parallel forces, the centre of gravity, the mechanical powers, and friction. (The graphical or geometrical method of treating such problems should be studied as well as the analytical. No application of the differential calculus to Statics will be required).

Dynamics: Uniform, uniformly accelerated, and uniform circular motion, falling bodies and projectiles *in vacuo*, collisions and work. (Analytical methods of solution, but not the use of the differential calculus, will be involved).

Analytical Geometry: Problems on straight line and circle.

Conic Sections: Elementary properties, with easy problems both on the analytical and geometrical methods.

French.—The passages for translation will be taken mainly from standard authors, and in other respects the Examination will proceed on the same lines as in German.

Latin.—Passages selected from the authors usually read in schools will be set for translation into English. Passages from English authors will be given for translation into Latin prose and verse, but candidates will be allowed, in the place of verse composition, to answer questions of a simple character, which will test whether they possess a fundamental knowledge of the grammar of the language, and such an elementary acquaintance with Roman History as is required for the intelligent study of the books they have read.

Greek.—Passages will be set for translation into English from the authors usually read in schools, and in other respects the Examination will proceed on the same lines as in Latin.

English History.—The General Paper in this subject will test whether the candidates are accurately acquainted with the facts of English History, and also possess an intelligent knowledge of the meaning of the facts. The paper on the fixed period will, of course, require from the candidates more minute knowledge than the General Paper.

Botany, Chemistry, Physics, Physical Geography, and Geology.—The standard of Examination in these subjects will be such as may be reasonably expected from the education given at schools possessing appliances for practical instruction, such as a laboratory, etc. A considerable portion of the marks will be allotted for the proficiency shown in the practical part of the Examination.

Chemistry will be limited to elements of inorganic chemistry.

Physics will include elementary properties of electricity, magnetism, heat, light, and sound.

Geology, chiefly economic, including the recognition of the more familiar minerals and rocks, and their properties and uses.

CLASS III.

BOTH SUBJECTS MAY BE TAKEN UP.

Drawing, Freehand.

Drawing, Geometrical.

GENERAL.

Handwriting.—In estimating the papers of candidates, a limited number of marks, namely, 100 out of the maximum allotted to each subject, is assigned for handwriting.

RESOLUTION.

The Governor-General in Council is pleased to prescribe the following rules for regulating the grant by Local Governments of licenses to explore and prospect for minerals and the grant of mining leases:—

Rules for the grant of licenses by Local Governments to explore and prospect for minerals, and of mining leases.

The following rules regulating the grant by Local Governments of licenses to explore and prospect for minerals and the grant of leases of mines and minerals have been made by the Governor-General in Council, and sanctioned by the Secretary of State for India in Council.

No such license or lease can be granted by any Local Government otherwise than in accordance with these rules, except with the previous sanction of the Secretary of State for India in Council, or with that of the Governor-General in Council under any general or special authority which he may have received in this behalf from the said Secretary of State in Council.

In these rules--

Collector means the Revenue-officer in charge of the district ; and

Local Government includes a Chief Commissioner.

Exploring Licenses.

1. A license to explore land for minerals or mineral oil, called hereinafter an exploring license, will authorize the licensee to search the surface of the land specified in the license for minerals of every discription and for mineral oil, and, subject to such restrictions as the Local Government may from time to time impose, to remove any specimens or samples found by the licensee in or upon such land.*

2. Such license shall only be granted with respect to land in which the mines, minerals or mineral oils are the property of the Government, and (subject to the provisions of any law or rule having the force of law, for the time being in force with reference to such land) shall not authorize the licensee to enter upon any land in the occupation of any person without the consent of the occupier.

3. Such license shall not authorize the licensee to mine or quarry, but he may be permitted to turn up to a depth not exceeding two feet the surface of unoccupied lands, or, with the consent of the occupier, that of land which the Government has granted for agricultural purposes, reserving only the right to minerals.

4. Such license may be granted by such person and under such rules as the Local Government may prescribe.

5. Every such license shall run for one year, and there shall be paid for each license such fee, not exceeding Rs. 10, as the Local Government may prescribe.

6. A royalty shall be payable to Government on the value of all precious stones found and removed by an explorer, whether he has taken out a license or not. In the case of licenses such royalty shall be at such rate, not exceeding 30 per cent., as shall be fixed by the license, and in the case of an unlicensed explorer shall be 30 per cent. on the value of the stones removed. Neglect to report the discovery of any such stone within a reasonable time shall involve the forfeiture of the license and of all claim to have an application for a mining or prospecting lease favourably considered.

7. Such license shall give no exclusive or preferential rights, but in considering rival claims for a prospecting license or mining lease, due regard will be had to operations conducted under cover of an exploring license.

Prospecting Licenses.

8. (1). A license to prospect for minerals or mineral oil, called hereinafter a prospecting license, shall confer on the licensee the sole right, subject to the conditions contained in the license, to mine, quarry, bore, dig and search for, win, work, and carry away any mineral or mineral oil specified in the license, and lying or being within, under, or throughout the land specified in the license.

(2). A prospecting license shall only be granted with respect to land in which the mines, minerals, or mineral oils are the property of the Government, and which is comprised in a compact block, the area of which does not exceed the area specified in Schedule A, and the length of which does not exceed four times its breadth.

9. When any area has been explored, and its value as a field for mining sufficiently ascertained, the Local Government may refuse to grant prospecting licenses and may order such area to be demarcated into blocks, and may, subject to such rules as the Governor-General in Council may from time to time prescribe, sell by public auction or private contract the right to win and carry away minerals in and from all or any of such blocks for such term or terms not exceeding 30 years, and subject to such conditions as it may think fit, or may grant mining leases thereof as provided in Rules 18 and 19 as it may think fit:

Provided that no such sale as aforesaid shall be made without the previous sanction of the Secretary of State for India in Council if the estimated value thereof exceeds 12 lakhs of rupees.

* NOTE.—The surface of unoccupied and unreserved land which is the property of Government may be freely searched without a license, but the Government does not object to granting a license to explore when one is applied for.

10. (1). No prospecting license shall be granted except to o person approved by the Local Government, and such person shall, before the license is granted, deposit as security in respect of each license such sum, not being less than Rs. 500, as the Collector may determine, or give security to the like amount to the satisfaction of the Collector. Subject to such deduction on account of compensation for surface damage or otherwise as the Collector may order, the amount of any deposit made under this rule, should the depositor afterwards become the lessee of any mining lease, will be carried to his credit as part of the rents and royalties payable under his lease and should, he decline or fail to obtain any such lease as aforesaid, will be returned to him.

(2). No prospecting license shall be granted to any Company or to any Syndicate on behalf of a proposed Company without the previous sanction of the Governor-General in Council.

11. (1). Every application for a prospecting license shall, unless the Local Government shall in any case otherwise direct, be made to the Collector of the district in which the land or some part of the land with respect to which the license is required is situate.

(2). Every such application shall contain the following particulars, namely—

(*a*) the name, residence and profession of the applicant;

(*b*) a description as accurate as possible, and illustrated by a rough sketch of the situation, boundaries, and area of the land with respect to which the license is required; and

(*c*) a specification of the mineral or minerals for which the applicant desires to prospect.

(3). Every application shall be accompanied by a certificate of approval signed by a Secretary to the Local Government.

12. On receipt of any such application the Collector shall, as soon as practicable, inquire whether the grant of the license applied for is inexpedient either on the ground that the land described in the application is required for a public purpose, or otherwise.

13. (1). Should the Collector be of opinion that it is not expedient to grant the license or should he find that the licensee has not been approved by the Local Government, he shall refuse to grant the license, and shall forthwith report the matter through the proper channel to the Local Government, which may pass such orders as it may think fit.

(2) Subject to the control of the Local Government, the Collector, if he finds that there is no objection to the grant of the license applied for, and if the applicant has been approved by the Local Government, may grant to the applicant a license in such form as may be prescribed, and shall report the matter to the Local Government or such other authority as the Local Government may direct.

14. No licensee shall, while his license is in force, be granted a prospecting license with respect to any other land which lies within such distance of the land covered by his license as is specified in Schedule A:

Provided that the Local Government may, for special reasons, dispense with or modify this condition.

15. A register of applications for prospecting licenses shall be kept in English in the Collector's Office, specifying—

1. Number of application.
2. Date.
3. Name and residence of applicant.
4. Situation of the land.
5. Boundaries.
6. Estimated area.
7. Date of sanction by the Local Government.
8. Date of license.
9. Rent and royalty payable.
10. Period for which granted.

16. Every prospecting license shall contain such conditions as may in any particular case seem necessary, and shall in all cases contain the following conditions :—

(i) The term for which the license shall be granted shall be one year or such shorter term as the applicant may desire. The license may be renewed by the Collector for a further term not exceeding one year, whenever he is satisfied that the licensee has been prevented from completing his search of the land by any cause other than his own default.

(ii) A moderate rent not exceeding one rupee per acre shall be paid for the land covered by the license.

(iii) The licensee shall pay a royalty at a rate not exceeding 30 per cent. of the value on all precious stones won and carried away, and a royalty at the rates specified in Schedule C on all other minerals won and carried away over and above such quantity as the Local Government may allow to be taken free for purposes of experiment.

(iv) No land in the occupation of any person shall be entered upon without the consent of the occupier, and no trees, standing crops, or other private property shall be cut or in any way injured without the consent of the owner thereof.

(v) The licensee shall make and pay reasonable satisfaction and compensation for all injury which may be done by him in exercise of the powers granted by the license, and shall indemnify the Government against all claims which may be made by third parties in respect of any such damage or injury.

(vi) The licensee shall not cut or injure any tree on unoccupied and unreserved land without the permission of the Collector in writing.

(vii) Neither the licensee nor any one claiming through or under him shall grant or assign any interest under the license to any person without the previous consent in writing of the Local Government, or to any Company without the previous sanction of the Governor-General in Council.

(viii) In case of any breach on the part of the licensee of any of the five last preceding clauses, the Collector may summarily revoke the license, and thereupon all rights conferred thereby or enjoyed thereunder shall cease.

(ix) The licensee shall, within six months next after the determination of the license, or the date of the abandonment of the undertaking, whichever shall first occur, securely plug any bores and fill up or fence any holes or excavations that he may have made in the land to such extent as the Collector may require, and shall to the like extent restore the surface of the land and all buildings thereon which he may have damaged in the course of prospecting. Provided that this clause shall not apply to any land held under a mining lease.

(x) Should any question or dispute arise regarding the license, or any matter or thing connected therewith, or the powers of the licensee thereunder, or the amount or payment of the rent or royalty made payable thereby, the matter in difference shall be decided by the Local Government, whose decision shall be final.

17. On or before the determination of his license the licensee shall have a right, subject to the rules hereinafter contained, and provided that the Local Government is satisfied that the prospecting has been of a *boná fide* character :—

(*a*) in the case of mineral oil or minerals other than precious stones, to a mining lease in accordance with the terms contained in the rules for mining leases ;

(*b*) in the case of precious stones, to the first offer of such mining lease (if any) as the Governor-General in Council may think fit to grant.

Such lease may include so much land, whether comprising the whole or a part only of the area for which the prospecting license was granted, as shall not exceed the area specified with respect to mining leases in Schedule A annexed to these rules.

Mining Leases.

18. (1). Every application for the grant of a mining lease, not being a lease of a mine of precious stones, shall be presented to the Collector in whose district the land or some part of the land with respect to which the lease is applied for is situate. The Collector shall forward the application through the proper channel to the Local Government.

(2). No mining lease shall be granted otherwise than with respect to land in which the mines, minerals or mineral oils are the property of Government, and no lease of a mine of precious stones shall be granted except by the Governor-General in Council.

(3) No mining lease shall be granted to any Company or to any Syndicate on behalf of a proposed Company without the previous sanction of the Governor-General in Council.

19. Every application for a mining lease shall contain—

(a) the name, residence, and profession of the applicant;
(b) the name of the mineral for which the applicant intends to mine;
(c) a map of the area over which the proposed lease is to extend.

20. On receipt of any such application the Local Government may, if it considers that the applicant should be granted a mining lease, grant the same in accordance with these rules over such one or more blocks, each not exceeding in extent the area specified in Schedule A annexed to these rules, as the Local Government may think fit.

No such lease shall be executed until it has been approved by the Advocate-General or other legal adviser, if any, appointed for the Province.

21. Without the previous sanction of the Governor-General in Council, the length of a block shall not be allowed to exceed four times its breadth, nor shall the same lessee be granted either in the same lease or in separate leases more than one block unless the distance between each two of such blocks is not less than that mentioned in the last column of the said Schedule A.

22. The term for which a mining lease may be granted shall not exceed thirty years, and no covenant for renewal may be inserted in the lease without the sanction of the Governor-General in Council.

23. Every such lease shall contain such conditions and stipulations as the Local Government may in each case consider necessary; but shall in every case contain the following conditions, namely :—

(i) the lessee shall pay a royalty at the rate specified in the lease, which rate shall be that fixed for the particular mineral in Schedule C; and if any other mineral shall be discovered, then royalty shall be paid therefor at such rate, not being less than 20 per cent. of the value thereof, as the Local Government may determine, until a mining lease has been obtained in respect of such mineral: but the lessee shall be entitled to require and obtain such lease for the term then unexpired of his original lease upon the terms hereinbefore mentioned in Rule 17;

(ii) the lessee shall also pay for every year after the first year a fixed yearly dead rent at a rate not less than that laid down in Schedule B: provided that no lessee shall pay both royalty and dead rent in respect of the same lease but only such one of them as may be the greater in amount;

(iii) the lessee shall also pay for all land which he may take up, use, or occupy for the purpose of the mine a surface rent at the rate specified in Schedule B;

(iv) the lessee shall at his own expense erect and at all times maintain and keep in repair boundary marks and pillars according to the demarcation to be shown in a plan annexed to his lease;

(v) the lessee shall make and pay reasonable satisfaction and compensation for all injury which may be done by him in exercise of the powers granted by the lease, and shall indemnify the Government against all claims which may be made by third parties in respect of any such injury;

(vi) the lessee shall not cut or injure any tree reserved in the lease;

(vii) neither the lessee nor any person claiming through or under him shall assign the lease, or underlet the whole or any portion of the premises comprised in such lease, without the previous consent in writing of the Local Government; and no such assignment or under-lease shall be made to a Company without the previous sanction of the Governor-General in Council;

(viii) the lessee shall commence operations within two years from the date of the execution of the lease, and shall thereafter carry them on effectually in a proper, skilful, and mining-like manner unless prevented by unavoidable cause;

(ix) the lessee shall keep correct accounts showing the quantity and particulars of all minerals obtained from the mine and the number of persons employed therein, and also complete plans of the mine, and shall allow any officer authorised by the Local Government on that behalf at any time to examine such accounts and plans, and shall furnish the Local Government with such information and returns in respect of the aforesaid matters as it may prescribe;*

* NOTE.—All information and returns obtained or furnished under this clause shall be treated as strictly confidential.

(x) the lessee shall allow any officer authorised by the Local Government in that behalf to enter upon the premises comprised in the lease for the purpose of inspecting the same;

(xi) the lessee shall without delay send to the Collector a report of any accident which may occur at or in the said premises, and also the finding therein of any mineral not specified in the lease;

(xii) should the royalty or rent reserved or made payable by the lease be not paid within twenty-eight days next after the date fixed in the lease for the payment of the same, the Local Government may enter upon the said premises and seize and sell any minerals or moveable property therein, and, if the royalty or rent cannot be so recovered, may determine the lease and take possession of the premises comprised therein;

(xiii) in case of any breach on the part of the lessee of any covenant contained in the lease, the Local Government may determine the lease and take possession of the said premises;

(xiv) at the end or sooner determination of the lease, the lessee shall deliver up the said premises and all mines (if any) dug therein in a proper state for working;

(xv) should any question or dispute arise regarding the lease or any matter or thing connected with the mines and minerals leased or the working or non-working thereof, or the amount or payment of the royalty or rent reserved or made payable by the lease, the matter in difference shall be decided by the Local Government, whose decision thereon shall be final.

General Provisions as to Licenses and Leases.

24. No license or lease shall authorise the commencement of any exploration, prospecting or mining in a reserved forest unless previous notice of such intended commencement shall have been given to the District Forest Officer, and such exploration, prospecting, or mining shall be subject to such conditions as the said officer may prescribe.

25. Should the applicant for a prospecting license or mining lease desire the Collector to prepare for him the sketch required by Rule 11 (2) (*b*) or the map required by Rule 19 (*c*), or should the sketch or map presented by the applicant be insufficient, the Collector may prepare the sketch or map required and may, if he so order, recover the cost from the applicant at a rate not exceeding 4 annas per acre. If the Local Government has prepared a map of a tract of country specially for the convenience of intending applicants for licenses and leases under these rules, and if any applicant makes use of such map for the sketch or map aforesaid, it will be open to the Local Government to recover as above such share of the cost of preparing the map as it may consider to be equitably due from such applicant.

26. If a license or lease is not executed within six months after lease has been granted for it, the right of the applicant to such license or lease shall be held to have lapsed, unless the Local Government for special reasons consents to grant the same notwithstanding the delay.

The Imperial Institute, in pursuance of its objects as defined by the Royal Charter, which include the encouragement and development of British manufactures and industries, will provide attendants, lighting, and all needful supervision and general facilities incidental to the Exhibition as a whole.

Exhibitors will be expected to provide, at their own cost, the Exhibits, Glass Cases and Fittings, and to incur the cost of transit to and from the Institute, and of the necessary attendants for the installation and arrangement of the Exhibits.

As regards processes, the Imperial Institute will be prepared to receive applications, and to provide motive power to a moderate extent, for the display of such processes, subject to the Executive Council being of opinion that the utility and attractiveness of the process to be illustrated is sufficient to justify the outlay thereby involved.

The Committee of Advice has selected and recommended to the Council a preliminary list of Firms to whom invitations to exhibit are being transmitted, but applications for permission to exhibit will be received from individuals and firms from all parts of the British Empire.

No Sales will be allowed in the Exhibition Galleries, but Exhibitors will be permitted to take orders for articles at the Exhibition. No circulars or trade cards must be distributed by Exhibitors.

A Catalogue will be issued and sold in the Exhibition, in which a reasonable description of the Exhibits, and of any special features to which attention is called by the manufacturers, may be inserted free of charge.

The exhibiting space will be allotted by the Committee of Advice, in proportion to the demand, amongst those individuals and firms included in these lists (or in subsequent lists, to be approved by the Committee) who may wish to exhibit.

All Exhibits, Glass Cases, Fittings, etc. must arrive at the Institute not later than noon on Saturday, April 27th, 1895. No Cases or Exhibits will be received after that date. The Exhibits must be installed and arranged in their cases not later than noon on Thursday, 2nd May, 1895.

Screens or other erections must not exceed 8 feet in height.

The Executive Council reserve to themselves the right of refusing to admit to the Institute premises any Cases, Fittings, or Exhibits arriving after noon on the 27th April, and to remove from the Exhibition Gallery, at the cost of the Exhibitor, any Exhibits, Cases or Fittings, the arrangement of which may not be completed to the satisfaction of the Council by noon on the 2nd May. Iu such instances the Executive Council reserve the right to dispose, at their absolute discretion, of the space which thus may become available. Exhibitors will not be allowed to supplement or change their Exhibits during the time the Exhibition remains open, without the permission in writing cf the Council.

The acceptance by a firm or individual of the invitation to exhibit will be taken as consent on his part to allow all his Exhibits, Cases and Fittings to remain undisturbed in the Galleries until the close of the Exhibition, and as an agreement on his part to the right of the Council to order, or, if necessary, to cause, without explanation, the removal of the Exhibit at any time they may think proper, and, further, as an agreement to abide by the Regulations here set out.

The conditions above stated are subject to the provisions which are set out in the Special Prospectus issued in connection with each division of the Exhibition.

The Executive Council, while undertaking to supply adequate general control watching, and care, accept no responsibility or liability as regards the Exhibits in respect of damage or loss by fire or accidents, or otherwise.

An invitation to a firm or individual to exhibit will be considered as cancelled if a definite reply is not received by the 2nd February.

All communications should be addressed to—

The Secretary to the
Photographic Exhibition (1895),
Imperial Institute,
London, S.W.

The Council reserves to itself the right, in the event of the space applied for considerably exceeding the accommodation available, or for other causes, to allot space only to certain of the applicants.

RESOLUTION.

Simla, the 10th May 1895.

READ again—

Resolution No. 1580, dated 29th June 1886, prescribing the procedure for the payment of compensation for land taken up for public purposes.

RESOLUTION.—The Land Acquisition Act, X of 1870, having recently been amended as Act I of 1894, the following rules regarding the payment of compensation for land taken up for public purposes under the Act are substituted for those published in the Resolution of 29th June 1886 read in the preamble.

LAND ACQUISITION OFFICERS.

2. After all preliminaries in respect to estimate, &c., that may be required under departmental rules in force for the time being have been duly carried out, the land will be taken up under the Act either by the Collector or by some special officer who is placed at the disposal of the Public Works Department, and invested with the powers of a Collector under the Act; the procedure differs in the two cases.

PROCEDURE OF SPECIAL OFFICERS APPOINTED UNDER THE ACT.

3. Officers who are specially employed for this work, being invested with the powers of a Collector under the Act and placed at the disposal of the Public Works Department, are regarded as Public Works disbursers, and are supplied with funds in the manner prescribed in Article 467 of the Civil Account Code. The following procedure shall be observed by such officers.

4. When an award is made under section 11 of the Act, the officer shall have a statement prepared in the appended form (marked A) showing the amounts payable to each person under the award, and shall, on the day the award is made, forward a copy of the statement, signed by himself, to the Examiner of Public Works Accounts with whom he is in account. Before signing the copy, the officer should carefully satisfy himself that it correctly shows the amounts due under the award, and should himself enter the total of column 6 of the statement in words both in the original and copy. A subsidiary statement in Form AA giving particulars regarding the acceptance, by the persons concerned, of the amounts entered in column 6 of the award statement should also be furnished to the Examiner as soon as possible. If the subsidiary statement is not complete on the day that the award is made, the necessary entries in column 7 of statement A will be made in the Examiner's office on receipt of the statement in Form AA.

5. In cases where an award has been made by a Court under section 26 of the Act, a second award statement should be prepared in the accompanying from (marked B) by the Land Acquisition Officer as soon as the decision of the Court is ascertained, and a copy thereof forwarded to the Examiner of Public Works Accounts. On receipt of this statement, the Examiner will proceed to check the entries in columns 1 to 4 with the original award by the officer.

6. Any change in the apportionment of the officer's award made by a Court under section 30 of the Act, should also similarly be communicated to the Examiner for the necessary corrections in the award statement. And if under section 31 (3) of the Act, it has been arranged to grant a compensation otherwise than in cash, the nature of such compensation should be clearly specified in the column of remarks in the award statement.

7. Under section 12 (2) of the Act the officer is required to give notice of his award to such of the persons interested as are not present personally or by their representatives when the award is made. When the compensation awarded is either accepted by the persons entitled thereto according to the award, or is not objected to under section 18 (1) of the Act, or when the persons admitted to be interested agree to receive payment under protest as to the sufficiency of the amount, the officer makes payment to the payees direct. In all other cases the officer deposits the amount of the compensation in a Civil Court as provided in section 31 (2) of the Act. The officer should, as far as possible, arrange to make the payments due in or near the village to which the payees belong, in order that the number of undisbursed sums to be placed in deposit on account of non-attendance may be reduced to a minimum.

8. In making direct payments to the persons interested under the award, the officer shall take the receipt of each person to whom money is paid on a separate voucher in the accompanying form (marked C), containing a reference to the item showing the amount due to that person in the statement prescribed in paragraph 4. In cases where payments are made to a number of persons under a single award, an acquittance roll in Form CC may be substituted for separate receipts in Form C. The officer shall forward the separate receipts of the payees or the acquittance roll, as the case may be, to the Examiner of Public Works Accounts with whom he is in account, when forwarding to him the account of the month in which the payments are made.

9. All payments into Court for deposit under the Act should be made by means of cheques in favour of the presiding officer of the Court, payable by order of the Court to credit of Civil Court Deposits. The cheques should be accompanied with receipts, in triplicate, in Form D duly filled up, of which one will be retained by the Court for record, and the other two returned duly signed to the Collector, who will keep one copy and forward the other to the Examiner of Public Works Accounts with the accounts of the month in which the payments are made. Payments of the amounts deposited shall be made under the rules for the payment of Civil Court Deposits.

10. When a Court has awarded any compensation in excess of the officer's award, the further payment due, as entered in column 6 of the award statement in Form B, should be made into the Court by means of a cheque, and the procedure described in the preceding paragraph should be followed, Form D being used with the necessary changes to give full particulars of the order of the Court.

11. A Local Government may authorise any particular Land Acquisition Officer to make all or any of his payments by cheques, provided no inconvenience is caused thereby to the payees in consequence of the property being situated at a distance from the Treasury. The use of cheques should be safeguarded by a strict observance of the following rules:—

(1) Every cheque-book should contain a certain number of cheques, with consecutive printed numbers, and each book should contain its own serial number.

(2) The serial number of the cheque-book, and the number of cheques it contains, should be reported to the Treasury Officer before the book is brought into use.

(3) The cheque-book should be kept under lock and key by the Land Acquisition, Officer himself.

(4) The cheques should be filled up by the Land Acquisition Officer, with his own hand, in words as well as figures, and cheques should be enfaced "under Rs. ."

(5) A periodical examination of pass-books from the Treasury with the counterfoils of the cheque-book should be made by the Land Acquisition Officer himself.

PAYMENTS UNDER THE ACT AFTER THE SPECIAL OFFICER IS RELIEVED OF HIS SPECIAL DUTIES.

12. In any case in which a reference is made to the Civil Court, and the award of the Court is not made till after the special officer has been relieved of his special duties, the further payments due under the award shall be made by the Collector, who will observe the same procedure as if the reference to the Civil Court had been made by himself, as prescribed in paragraphs 9 and 10 above.

PROCEDURE OF COLLECTOR OR OTHER CIVIL OFFICER NOT SPECIALLY EMPLOYED FOR LAND ACQUISITION.

13. When the land is taken up by the Collector or other Civil officer not specially employed for the work, such Collector or Civil officer is not a Public Works disburser, but draws money for payment due under his award from the Civil Treasury. Such Collector or Civil officer shall, as soon as he makes the award, or as soon as he ascertains that an award has been made by the Civil Court, prepare a statement in Form A or B or in both, as the case may be, showing the amounts due, and forward a copy thereof to the Examiner of Public Works Acccunts concerned in the manner prescribed in paragraphs 4 and 5. Additions and alterations in the award statement should also be communicated to the Examiner as prescribed in paragraph 6, and a subsidiary statement in Form AA should if necessary be furnished as laid down in paragraph 4. The procedure laid down in paragraph 7 should also be observed by such Collector or Civil officer.

14. In making the payments due under the award, the Collector shall take from each person to whom payment is made a receipt in Form C, containing a reference to the particular entry in the award showing the amount due to the payee. In the case of payments to a number of a persons under a single award, an acquittance roll may be substituted for separate receipts as laid down in paragraph 8. These receipts will be the Treasury Officer's vouchers for the payments, and shall be forwarded by him with the accounts of the month to the Accountant-General of the Province, who will in ordinary course forward them to the Examiner of Public Works Accounts. For payments into Civil Courts the procedure laid down in paragraphs 9 and 10 should be observed.

15. The Treasury Officer has no concern with the award or with the award statement; he makes the payments on the authority of the Collector, or other officer assessing compensation. The Collector may either draw the amount to be disbursed to each payee separately, in which case he should countersign the receipt in Form C, and make it payable at the Treasury to the payee, altering the words "Paid in my presence $\frac{\text{in cash}}{\text{by cheque}}$" to "Pay"; or he may draw the total amount to be disbursed by him under the award on his own receipt as an advance, and after making the payments forward the receipts of the payees to the Treasury Officer in adjustment of the advance. In the former case, an advice list of the forms passed for payment should be sent to the Treasury Officer, who in turn should send weekly an advice of orders paid.

AUDIT BY ACCOUNT OFFICERS.

16. Whether the payment is made by a special officer or by the Collector (or other Civil officer), the audit of the Examiner of Public Works Accounts shall consist in seeing that every payment is supported by a receipt in Form C or D, and that the amount paid on such receipt is the amount payable under the award, as shown in the statement of which he will have received copies under the preceding orders. The Examiner will also note in the last column of Form A the date on which possession is taken, as reported to him by the Executive Engineer or other officer.

17. The Examiner will, as he receives the vouchers, fill in the entries in the appropriate columns of the award statements (Forms A and B); and as he receives the reports of possession, he will fill in the entries in column 10 of the statement in Form A: when all the vouchers showing either payment to the payee or payment into the Court on deposit and the reports of possession have been received, he will forward a copy of the completed statements in Forms A, AA, and B to the Chief Revenue Authority. This

will complete the audit of the Examiner; any other or further returns or reports from the officers who assess or pay compensation will be disposed of by the Chief Revenue Authority without reference to the Examiner.

18. When the land is acquired for and the cost is debitable to the Military Works Department, the procedure above laid down will be observed, the Examiner of Military Works Accounts being substituted for the Examiner of Public Works Accounts.

19. When the land is acquired for and the cost is debitable to any other Department than the Public Works Department or Military Works Department, the procedure will also be the same, the Account officer who will audit the payments being substituted for the Examiner of Public Works Accounts.

PROCEDURE WHEN NO MONEY COMPENSATION IS PAID.

20. In cases in which compensation is granted in the shape of other land in exchange, or remission of revenue, as provided in section 31 (3) of the Act, and the land is acquired for Government purposes, no adjustment of the value of the land given in exchange will be required, unless it is separately purchased by Government. If, however, the land is acquired for a body financially indpendent of Government, the value of the Government land given in exchange, and the capitalised value of the abatement of Land Revenue should be charged against advances of funds (paragraph 22) made by that body.

INVESTMENT OF COMPENSATION MONEY DEPOSITED IN COURT.

21. Invsetments under sections 32 and 33 of the Act of money deposited in Court should be arranged for, in the case of purchase of Government securities, in communication between the Court and the Civil Accountant-General concerned, and purchases of land should be effected under the Court's orders through the Collector or other Revenue authority of the Province. The Accountant-General will inform the Court what sum should be remitted to enable him to make the investment, and this amount will be paid from the deposits in Court.

AUDIT, ADJUSTMENT AND RECOVERY OF PAYMENTS ON BEHALF OF BODIES FINANCIALLY INDEPENDENT OF GOVERNMENT.

22. In any case in which land is acquired for a municipality or other body financially independent of Government, the Local Government may direct that the payments, instead of being made and audited in the same manner as the ordinary payments of such body, shall be made and audited as if the land were being acquired for Government. If the Local Government issues such an order, the Collector or other officer who makes payments on account of the land acquired shall draw funds from the Treasury and make payments in the manner laid down in these rules, using the forms prescribed, and shall render his accounts to the Civil Accountant-General. The Municipality or other body will pay the estimated cost of the compensation to the credit of Government in advance on such dates and in such instalments as the Local Government may direct, further payment to Government being required as soon as the Accountant-General reports that the payments made exceed the amount received in advance. The Accountant-General will deal with the accounts and payments as prescribed in these rules, debiting the payments against the advances received from the Municipality or other body.

ORDERED, that this Resolution be communicated to all Local Governments and Administrations, to the Home and Revenue and Agriculture Departments, to the Comptroller-General with reference to his letter No. 683, dated 11th August 1894, and to all Accountants General and Comptrollers.

Ordered also that a copy of this Resolution be forwarded to the Public Works Department for information and for the issue of further orders.

R. NATHAN,

Offg. Under-Secy. to the Govt. of India.

RESOLUTION.

Simla, the 27th May 1895.

RESOLUTION.—A case has recently been brought to the notice of the Government of India in which a gazetted officer's salary bill was forged and the encashment of the forged bill facilitated by endorsement in favour of a person unknown to the office where the bill was presented for payment.

2. As the practice of permitting an officer to direct his salary to be paid to any person whom he chooses to name by endorsement on the bill is unauthorised and facilitates fraud, the Governor-General in Council is pleased to direct that the rule be strictly observed that salaries be paid only to the officers themselves or, at their written request or order, to some well known banker or agent.

ORDER.—Ordered, that a copy of the Resolution be forwarded to all Local Governments and Administrations; to the several Departments of the Government of India; to the Comptroller and Auditor-General and to all Accountants-General and Comptrollers; to the Director-General of the Post Office of India; to the Commissioner, Northern India Salt Revenue; and to the Superintendent of Government Printing, India.

2. So much of Punjab Government Notifications No. 462, dated 11th July 1888, and No. 371, dated 3rd June 1889, as relate to the Cantonment of Mooltan are hereby cancelled.

The maxima of marks shown in the 3rd column are those allotted for the Assistant Commissioners' Examination. As Cantonment Magistrates are given the same papers as those set for Assistant Commissioners, but are not required to answer all the questions prescribed for those officers, the maxima will be computed in accordance with Rule XIV.

Only the first papers in Criminal and Civil Law may be answered with the aid of books, Rule IV being observed with regard to them.

The Language Examination is only intended for those candidates who have not, in qualifying for the Indian Staff Corps, passed by the Higher Standard in the vernacular of the Province. Cantonment Magistrates who have passed a Language Examination in another Province will, on transfer to the Punjab, be required to pass in the language of the Punjab prescribed by these rules, unless they have already passed a similar examination by the Higher Standard either in the Province from which they have been transferred or in qualifying for the Indian Staff Corps.

The Colloquial Examination in Language will consist of conversation between the candidates and a headman of a village and is meant to test the candidates' knowledge of the vernacular of the part of the Province in which the candidates have been stationed. Should Cantonment Magistrates who are required to pass the Language Examination fail to pass within 18 months of their appointment to the Punjab they will be entitled to no increase of salary until they do pass.

XII.—There are two standards of Examination—*Higher and Lower*—with one set of question papers for both standards. The Lower Standard is only intended for those candidates who are required by Rule VII to pass by that standard. Candidates may pass by the Higher or Lower Standard in any or all of the groups of subjects. Candidates will be held to have passed in a group by the Higher Standard if they obtain two-thirds of the maximum of marks allotted to that group, and when a group contains more than one subject, one-half of the maximum of marks allotted to each of its subjects. They will be held to have passed by the Lower Standard if they obtain similarly one-half of the maximum of marks allotted to a group and one-third of the maximum of marks allotted to each subject.

XIII.—After each Examination the names of those candidates who have passed by either standard will be published in the Gazette. Candidates will be noticed as having passed "with credit" in a group if they obtain three-quarters of the maximum of marks allotted to the group, and when the group contains more than one subject, two-thirds of the maximum of marks allotted to each subject.

XIV.—In making the calculation under Rules XII and XIII, the marks allotted to any question which Cantonment Magistrates are not required to answer shall first be deducted from the maximum of marks allotted to the paper, subject or group as the case may be.

XV.—Cantonment Magistrates will not be invested with full powers until they have exercised 2nd Class powers for six months and have passed the Departmental Examination by the Higher Standard.

Only the first papers in Criminal and Civil Law may be answered with the aid of books, Rule IV being observed with regard to them.

The Language Examination is only intended for those candidates who have not, in qualifying for the Indian Staff Corps, passed by the Higher Standard in the vernacular of the Province. Cantonment Magistrates who have passed a Language Examination in another Province will, on transfer to the Punjab, be required to pass in the language of the Punjab prescribed by these rules, unless they have already passed a similar examination by the Higher Standard either in the Province from which they have been transferred or in qualifying for the Indian Staff Corps.

The Colloquial Examination in Language will consist of conversation between the candidates and a headman of a village and is meant to test the candidates' knowledge of the vernacular of the part of the Province in which the candidates have been stationed. Should Cantonment Magistrates who are required to pass the Language Examination fail to pass within 18 months of their appointment to the Punjab they will be entitled to no increase of salary until they do pass.

XII.—There are two standards of Examination—*Higher and Lower*—with one set of question papers for both standards. The Lower Standard is only intended for those candidates who are required by Rule VII to pass by that standard. Candidates may pass by the Higher or Lower Standard in any or all of the groups of subjects. Candidates will be held to have passed in a group by the Higher Standard if they obtain two-thirds of the maximum of marks allotted to that group, and when a group contains more than one subject, one-half of the maximum of marks allotted to each of its subjects. They will be held to have passed by the Lower Standard if they obtain similarly one-half of the maximum of marks allotted to a group and one-third of the maximum of marks allotted to each subject.

XIII.—After each Examination the names of those candidates who have passed by either standard will be published in the Gazette. Candidates will be noticed as having passed "with credit" in a group if they obtain three-quarters of the maximum of marks allotted to the group, and when the group contains more than one subject, two-thirds of the maximum of marks allotted to each subject.

XIV.—In making the calculation under Rules XII and XIII, the marks allotted to any question which Cantonment Magistrates are not required to answer shall first be deducted from the maximum of marks allotted to the paper, subject or group as the case may be.

XV.—Cantonment Magistrates will not be invested with full powers until they have exercised 2nd Class powers for six months and have passed the Departmental Examination by the Higher Standard.

As Cantonment Magistrates are given the same papers as those set for Assistant Commissioners, but are not required to answer all the questions prescribed for those officers, the maxima will be computed in accordance with Rule XIV.

Only the first papers in Criminal and Civil Law may be answered with the aid of books, Rule IV being observed with regard to them.

The Language Examination is only intended for those candidates who have not, in qualifying for the Indian Staff Corps, passed by the Higher Standard in the vernacular of the Province. Cantonment Magistrates who have passed a Language Examination in another Province will, on transfer to the Punjab, be required to pass in the language of the Punjab prescribed by these rules, unless they have already passed a similar examination by the Higher Standard either in the Province from which they have been transferred or in qualifying for the Indian Staff Corps.

The Colloquial Examination in Language will consist of conversation between the candidates and a headman of a village and is meant to test the candidates' knowledge of the vernacular of the part of the Province in which the candidates have been stationed. Should Cantonment Magistrates who are required to pass the Language Examination fail to pass within 18 months of their appointment to the Punjab they will be entitled to no increase of salary until they do pass.

XII.—There are two standards of Examination—*Higher and Lower*—with one set of question papers for both standards. The Lower Standard is only intended for those candidates who are required by Rule VII to pass by that standard. Candidates may pass by the Higher or Lower Standard in any or all of the groups of subjects. Candidates will be held to have passed in a group by the Higher Standard if they obtain two-thirds of the maximum of marks allotted to that group, and when a group contains more than one subject, one-half of the maximum of marks allotted to each of its subjects. They will be held to have passed by the Lower Standard if they obtain similarly one-half of the maximum of marks allotted to a group and one-third of the maximum of marks allotted to each subject.

XIII.—After each Examination the names of those candidates who have passed by either standard will be published in the Gazette. Candidates will be noticed as having passed "with credit" in a group if they obtain three-quarters of the maximum of marks allotted to the group, and when the group contains more than one subject, two-thirds of the maximum of marks allotted to each subject.

XIV.—In making the calculation under Rules XII and XIII, the marks allotted to any question which Cantonment Magistrates are not required to answer shall first be deducted from the maximum of marks allotted to the paper, subject or group as the case may be.

XV.—Cantonment Magistrates will not be invested with full powers until they have exercised 2nd Class powers for six months and have passed the Departmental Examination by the Higher Standard.

No. 691, dated 4th April 1888.
No 1487, dated 4th September 1893.
No. 1490, dated 4th September 1893.

Rules for the custody, supply and sale of Stamps of all descriptions, namely, General Stamps used to denote the duties payable under the Stamp Act, 1879; *Court-fee Stamps used to denote the fees payable under the Court-fees Act,* 1870; *Telegraph Stamps and Postage Stamps.*

CENTRAL DEPOTS.

1. There shall be three central depôts for stamps of all descriptions, in charge of the Superintendents of Stamps at Calcutta, Madras and Bombay, respectively. These central depôts shall maintain a stock of stamps sufficient for two years' consumption. The Superintendents of Stamps in Madras and Bombay shall, for this purpose, forward not later than the last week in September in each year indents for the supply of the various descriptions of stamps required in the following year for the territories dependent on them for the supply of stamps to the Superintendent of Stamps, Calcutta. The Superintendent of Stamps, Calcutta, shall prepare a general consolidated indent for stamps of all descriptions, showing separately the demand for the following year for each of the three Presidencies, including in it the indents of the Superintendents of Stamps, Madras and Bombay; and shall forward this general indent to the Government of India in the Finance Department for transmission to the Secretary of State so as to reach him not later than the 1st November in each year. The Superintendent should forward a copy of the section of the general indent relating to Postage stamps to the Director-General of the Post Office, and of the section relating to Telegraph stamps to the Director-General of Telegraphs.

2. Stamps for the Bengal Presidency, including the North-Western Provinces and Oudh, the Punjab, Central India, Rájpútána, Assam and Burma, and local depôts subordinate to Calcutta, and stamps for copies for use in the Central Provinces, shall be supplied from the central depôt, Calcutta, on the indent of officers in charge of local depôts.

3. Stamps for the Madras Presidency, including Coorg, and local depôts subordinate to Madras, shall be supplied from the central depôt at Madras, on the indent of the officers in charge of local depôts.

4. Stamps for the Bombay Presidency, including Sind, Berár, the Central Provinces (save as provided in Rule 2), and local depôts subordinate to Bombay, shall be supplied from the central depôt, Bombay, on the indent of officers in charge of local depôts.

5. The Superintendents of Stamps, Calcutta, Madras and Bombay, on receiving an indent from a local depôt, shall have the indent examined to ascertain that the indent is such as to insure the local depôt having a proper supply, and may comply with the indent in full or in part as he thinks fit. If he thinks that the indent should be increased, he should request the officer who submitted the indent to submit a supplementary indent. The Presidency Post Offices of Calcutta, Madras and Bombay may indent for supplies on the central depôts.

LOCAL DEPÔTS.

6. Every Treasury throughout India, including those attached to political and salt agencies, shall be a local depôt for the custody and sale of stamps of all descriptions. Local Governments may establish local depôts at places where there is no Treasury.

7. Each local depôt shall, unless the Local Government otherwise directs, maintain a supply of stamps equal to the probable consumption of five months. Local Governments may direct that the supply to be maintained either generally or in respect of any particular kind of stamp or in certain local depôts shall be equal to the probable consumption of such other period as they deem expedient.

8. As soon as the number of stamps in the local depôt falls below the number issued from the depôt in the preceding six months, the officer in charge of the depôt shall prepare an indent for a supply equal to the probable consumption of three months. The indent shall show in separate columns for each denomination of stamp of which a supply is required the total of the balance in the local depôt and any branch* depôts

* For branch depôts the figures of the latest periodical return received at the local depôt showing details of stamp balances may be used for the purpose of calculating the total required for entry in each column.

subordinate to it, the quantity sold in the preceding six months, and the quantity indented for, which should be approximately one-half of the quantity sold in the preceding six months. The periods of "six months" and "three months" of this rule may, like that of five months in Rule 7, be altered by Local Governments to such other periods as they may deem expedient. This indent will be forwarded direct to the Superintendent of Stamps, Madras, Bombay or Culcutta, as the case may be; but the Local Government of any Province may direct that the indents shall be forwarded through any other officer, such as the Superintendent of Stamps of the Province, or that a copy of the indent shall be forwarded to such officer.

9. If the supply of stamps in any local depôt should run short before the receipt of the supply from the central depôt, the officer in charge of the local depôt should indent for a supply from a neighbouring depôt, sending a copy of the indent to the Superintendent or Commissioner of Stamps of the Province, or such other officer as the Local Government may direct. It is the duty of the Superintendent of Stamps, Madras, Bombay or Calcutta to report to the Local Government (or such authority as the Local Government may direct) in the case of General and Court-fee stamps, to the Director-General of the Post Office in the case of Postage stamps, and to the Director-General of Telegraphs in the case of Telegraph stamps, any case in which it may come to his knowledge that the stock of stamps in any local depôt of any description has fallen below the prescribed amount.

10. As soon as possible after the arrival of a supply of stamps from the central depôt, or from another local depôt, the officer in charge of the local depôt shall have the boxes or packets opened in his presence and the contents of each box or packet counted either by himself or in his presence immediately on being opened. The number of stamps received shall be compared by the officer in charge with the submitted invoice, and a receipt shall be sent as soon as possible to the officer who despatched the stamps.

11. Local Governments may issue such orders as may be thought necessary regarding the detailed counting of stamps received in a local depôt and as to the descriptions of stamps which the officer in charge must count with his own hands. Such orders may include instructions that a certain percentage only of sealed packets marked as containing a certain number of stamps need be opened and counted at the time of receipt, and the remainder, if the percentage opened are all found correct, left with seals unbroken to be counted as they are required on being given out from double lock. The officer in charge is responsible for observing any such instructions, and for satisfying himself as to the number of stamps received before signing the receipt.

12. If any of the stamps received are found to be unfit for issue, they should be at once returned to the Superintendent of Stamps. Stamps which are through any accident rendered unfit for issue at any time after receipt should be similarly returned to the Superintendent as soon as their unfitness is discovered. The necessary entries on account of stamps so returned should be made in the monthly statement (Rule 34), and in the *plus* and *minus* memoranda (Rule 36).

13. Immediately after the stamps received have been counted, they shall be placed in proper receptacles in the store under double lock, arranged in parcels or packets containing known quantities, the amount of each denomination being entered in a register maintained to show the receipts and issues to and from the store under double lock.

14. The Treasurer, or such other officer as the Local Government may direct, shall be the *ex-officio* vendor of all descriptions of stamps in each local depôt. Sales to the public or to licensed vendors shall not be made direct from the stores under double lock, such sales being made by the *ex-officio* vendor from the supply entrusted to him for this purpose to be kept by him under single lock, as prescribed in the following rules.

15. The stock to be made over to the *ex-officio* vendor to be kept by him under single lock should ordinarily be sufficient for the probable demand of one month. On a fixed date near the beginning of each month the *ex-officio* vendor shall prepare an indent for the quantity required for the month, in a form showing the balance in his hands, an average month's consumption, and the quantity required. When this indent is approved by the officer in charge, who should examine the balance under single lock, and ascertain that the quantities shown agree with the quantities shown in the indent, he shall give out the quantity required from the store under double lock. The same procedure shall be followed if any stamps should be required at any intermediate date. Local Governments may reduce the period of one month mentioned in this rule to one week or any other period less than a month, if they consider this desirable with reference to the amount of the Treasurer's security or for any other reason.

16. From the stock so made over to his charge and kept by him under single lock, the *ex-officio* vendor shall sell stamps to the public and to licensed vendors for cash. He shall keep in such language as the Local Government may direct an account of the daily

sales for each of the four descriptions of stamps in a form showing for each denomination the balance in his hand at the beginning of the day, the quantity sold during the day and the balance in his hand at the end of the day. He shall pay daily into the Treasury the cash received by him for stamps sold, the amount realized on account of each of the four descriptions of stamps—namely, General, Court-fees, Postage and Telegraph—being paid in separately. The account of daily sales should be inspected every day by the officer in charge of the depôt.

17. The rules regulating the grant of discount and the grant of licenses to licensed vendors for the sale of General and Court-fee stamps vary in different Provinces, and are prescribed by Local Governments, subject to the general rule that no change in the rates of discount shall be made without the previous sanction of the Governor-General in Council.

18. Local Governments may direct that the sales to the public of General and Court-fee stamps by *ex-officio* vendors shall be limited to stamps of a value higher than a named amount, the sale to the public of stamps of lower value being left to licensed vendors.

19. Telegraph stamps shall be sold to the public for cash by the *ex-officio* vendors provided that the quantity of stamps sold to one person at one time shall not be less in value than Rs. 5, and that the quantity sold shall not include less than one rupee worth of any particular denomination. On such sales no discount is allowed.

20. Telegraph Masters shall obtain supplies of Telegraph stamps from the local depôts, subject to the same conditions in regard to the quantity supplied at one time as those of the preceding rule, and shall sell to the public Telegraph stamps of all descriptions and to any value. No discount is allowed to Telegraph Masters for the sale of stamps; but they are allowed permanent advances of Telegraph stamps without payment, the amount of the permanent advance being fixed by the Director-General of Telegraphs When the permanent advance of Telegraph stamps has once been taken, subsequent issues to Telegraph Masters are made only on cash payment. But when the local depôt is closed for holidays of more than one day's duration, officers in charge of local depôts are authorized to issue Telegraph stamps to Telegraph Masters without payment in excess of the value of the permanent advance, these temporary advances being adjusted when the Treasury re-opens by the return of the stamps, or the payment of their value if sold.

21. Service Postage stamps shall be sold for cash from local depôts to Government officials and to persons specially authorized to purchase and use Service stamps on a written application. On such sales no discount is allowed.

22. Ordinary Postage stamps shall be sold to the public for cash from local depôts provided that the value sold to any person at one time shall not be less than Rs. 5, and shall not include any fraction of a rupee, and that embossed envelopes and post-cards shall be sold in complete packets only. No discount is allowed on such sales. Soldiers' envelopes are sold from certain selected local depôts only to Commanding Officers in complete packets, no discount being allowed.

23. The officer in charge of every post office, receiving office, tahsíl, thána and police station at which letters are received for despatch, and every person licensed under the rules framed under the Stamp Act, 1879, to sell General stamps, are required to keep a supply of ordinary Postage stamps for sale to the public sufficient for the probable demands of one week. To such persons ordinary Postage stamps, except soldiers' envelopes, are sold from local depôts for cash on the same conditions as to quantity as those prescribed in the preceding rule; and on such sales discount at the rate of quarter of an anna in the rupee is allowed.

A special extra commission of quarter anna in the rupee has been sanctioned, with effect from 11th November 1892, on all sales of the large size registration envelopes.

24. The officers in charge of post offices, receiving offices, tahsíls, thánas and police stations at which letters are received for despatch, are also required to keep a supply of one anna revenue stamps for sale to the public. To such officers one anna revenue stamps are sold from local depôts on the same conditions as to quantity as those prescribed in Rule 22. On such sales discount at the rate of one-half anna in the rupee is allowed.

25. A District Officer may authorize the grant of discount at the rate of quarter of an anna in the rupee to any *boná fide* retail vendor of ordinary Postage stamps, provided he is not employed in a Government Treasury. Such authority shall be in writing, and shall remain in force for one year. It may contain conditions in all or any of the following respects, namely, the maintenance of a sufficient supply of stamps of all or any specified denominations of Postage stamps for retail sale; the sale of the stamps at one or more particular shops or places, and the prohibition of sales at other shops or places; and the days and hours of sale. The District Officer shall keep a register showing the name, residence and occupation of every person to whom he grants such authority.

Note.—In the case of *all* stamped envelopes or postal wrappers the discount or commission is calculable on the face value of the stamp.

26. Superintendents and Inspectors of Post Offices within their respective jurisdictions and any other officers of the Post Office authorized on that behalf by the Postmaster-General or Deputy Postmaster-General, are empowered to examine the stock of Postage stamps kept by any of the persons required or authorized to keep Postage stamps for sale to the public under Rules 23 and 25.

BRANCH DEPÔTS.

27. Every subordinate branch or tahsíl Treasury shall be a branch depôt for the sale of stamps of all descriptions. But in any case where the sale of stamps from such a branch depôt is insignificant and equal facilities exist for the supply of stamps from a depôt, in the same station as the branch depôt, the Local Government may direct the closing of the branch depôt.

28. The Sub-Treasurer, or such other officer as the Local Government may direct, shall be the *ex-officio* vendor of stamps at a branch depôt.

29. The officer in charge of the branch depôt shall obtain his supplies from the local depôt to which the branch depôt is subordinate in the same manner as the *ex-officio* vendor at the local depôt obtains his supplies, except that the indent and the stamps must be sent by post or messenger to and from the local depôt; and that the examination of the balance in hand and the comparison of the amounts shown with those shown in the indent shall be done by the officer in charge of the branch depôt. In cases where there is likely to be a distinct saving of cost or greater security of the stamps in transit, the Local Government may empower the Board of Revenue or other superior Revenue authority to sanction the despatch of stamps direct from the central depôt to branch depôts, such supplies being passed through the accounts of the local depôt treated by the Superintendent of Stamps as supplies to the local depôts to which the branch depôts are subordinate.

The *ex-officio* vendor shall obtain his supplies from the officer in charge of the branch depôt in the same manner as the *ex-officio* vendor at the local depôt obtains his supplies from the officer in charge.

30 The supply to be kept in a branch depôt should be equal to the probable demand for three months; but Local Governments mny direct that the supply shall be equal to the demand of any other period instead of three months which they may consider expedient. The stock should be kept up to this amount by indenting and obtaining supplies from the local depôt from time to time as may be necessary.

31. Local Government shall fix the period a supply sufficient for which shall be kept under single lock by the *ex-officio* vendor, and the remainder of the stamps in the branch depôt shall be kept under double lock of the officer in charge of the branch depôt and of the *ex-officio* vendor, and given out to single lock as required.

32. Sales from branch depôts will be made subject to the same rules as those from the local depôts.

RETURNS TO AND BY THE SUPERINTENDENTS OF STAMPS AND ACCOUNTANTS-GENERAL.

33. On the last open day of September and March each year, the officer in charge of each local depôt will count, or have counted in his presence, the stamps in the depôt, both those under double lock and those under single lock, and will require the officers in charge of the branch depôts subordinate to him similarly to count the stamps in the branch depôt. He will attach to the monthly statements for September and March rendered to the Superintendent of Stamps, Calcutta, Madras or Bombay, or in the Provinces noted in the margin * to the local Superintendent or Commissioner of Stamps or other officer named by the Local Government a certificate in the following form:—

* The North-Western Provinces and Oudh, Punjab, the Central Provinces and Berár. (In the case of revenue adhesive stamps supplied to Berár from the Central depôt at Madras the monthly statements will continue to be submitted to the Superintendent of Stamps, Madras.)

"I do hereby certify that I have personally examined and counted, or had counted in my presence, the stamps of all descriptions in store in this local depôt on the September/March 18 and found the value of each description to be as stated in margin.† Also that I have received certificates from the officers in charge of the subordinate branch depôts that they have similarly counted the stamps in the branch depôts on the last day of the month of September/March of which the accounts are incorporated in the Head Treasury accounts, and that these certificates show the value of each description of stamps to be as stated in the margin.‡

Authority to appoint, suspend and dismiss public vaccinators.

3. The appointment, suspension and dismissal of the public vaccinator employed within the limits of the Municipality shall rest with the Sanitary Commissioner, Punjab, subject to the approval of the Municipal Committee. Vaccinators will be employed only from 1st April to 31st October inclusive.

The 29th November 1895.

Notification.—No. 1350.—The following Despatch from Her Majesty's Secretary of State for India, regarding the newly constituted Society of Comparative Legislation, is published for general information:—

No. 23 Judicial, dated India Office, London, 18th July 1895.

From—Her Majesty's Secretary of State for India,

To—His Excellency the Right Honourable the Governor-General of India in Council.

I FORWARD a copy of a letter (with enclosures) from the Right Honourable Lord Herschell with reference to the newly constituted Society of Comparative Legislation of which he is the President.

19th June 1895.

2. I request that your Excellency in Council will take the matter into your consideration and adopt such means as you may think best fitted to further the objects of the Society.

Dated the 19th June 1895.

From—The Right Honourable Lord HERSCHELL,

To—The Right Honourable H. H. FOWLER, M. P.

AS President of the Society of Comparative Legislation and at the request of the Council of that Association I have the honor to invite your co-operation in furthering the objects of the Society, and your assistance in bringing those objects to the notice of the Indian Governments.

2. The Society as you are aware took its inception from a valuable paper read by Sir Courtenay Ilbert, K. C. S. I., before the Fellows of the Imperial Institute on the 1894, and definitely took shape at a large and important inaugural conference held at the Imperial Institute on the 19th of December 1894, over which I had the honor to preside.

3. The Society has since obtained more definite organization; the Council and the Executive Committee have been formed, and a formal constitution and prospectus, or scheme of the objects of the Society have been drawn up. Of these documents I have now the honor to enclose copies, in the hope that you will be good enough to have them placed on record in your Department, and that you will also forward copies to the Governor-General of India and the Governors of Madras and Bombay for their consideration accompanied with an invitation that they will severally take such action as may appear best calculated to advance the objects which this Society has in view and to promote the study of comparative law.

4. Those objects are both practical and scientific. The Society is intended to be of service to legislative bodies both here and elsewhere, to practising lawyers and to jurists, and students of sociology. If the authorities in India will help us, we believe that we shall be able to repay any assistance they may render, by communicating to each the results of the work to which all will have contributed, after that work has been arranged, assimilated and supplemented by ourselves.

5. I do not enlarge further upon the objects of the Society, for these are fully detailed in the documents which I enclose, but it may be well that I should briefly indicate the nature of the assistance which those who are so disposed can afford us. It is hoped that many persons in India will help in the useful work to be done by the Society so far as to become subscribing members of it, and it would be useful if in each province having a legislature persons of position would consent to act as Local Agents, for the purposes of procuring subscriptions to the Society and otherwise assisting its objects. I should be glad to think that branch Societies will eventually be formed, from whom the Central Society may receive valuable suggestions and co-operation. But at present I can do no more than ask that suitable persons may be found to accept the position of corresponding members to whom our communications may be addressed and from whom we may obtain information. I trust that we shall be so fortunate as to secure as our correspondents either the Chief Justices or some other Judges or the Advocate-General or some other barristers who will carry sufficient weight to enable them to organise branches of the Society.

6. I have ventured to ask you to become on this occasion the medium of communication with the Indian Governments as it has appeared desirable that the first communication from the Society should reach India in the most influential manner; but I have no wish to trespass further upon your kindness, and any replies that this letter may produce will I trust be sent direct to me at the Imperial Institute, and the Secretaries will then know to whom future letters from the Society should be addressed.

7. It would not be becoming in me to make suggestions to the authorities in India as to the mode in which the subject dealt with in this letter should be treated, but I venture to think that the Society will be more successful if it is remembered that work of the character required comes better as the fruit of individul effort, than as the result of directions emanating from a Government Institution.

THE SOCIETY OF COMPARATIVE LEGISLATION.

A CONFERENCE, presided over by the Lord Chancellor, was held at the Imperial Institute, on the 19th December 1894, to consider the best means of furthering the study of Comparative Legislation, as suggested in a paper lately read at the Institute by Sir Courtenay Ilbert, K C.S.I. The following Resolutions were passed:—

Moved by the Lord Chancellor, seconded by Sir Robert Herbert, G.C.B.—

(1) "That it is expedient to establish a Society of Comparative Legislation, with the object of promoting knowledge of the course of Legislation in different countries, more particularly in the several parts of Her Majesty's Dominions, and in the United States."

Moved by Lord Hobhouse, K.C.S.I., seconded by Sir Raymond West, K.C.I.E.—

(2) "That, for this purpose, a Council be formed, with instructions to nominate an Executive Committee, charged with the duty of preparing a Constitution for the Society, and of indicating the best mode of carrying out its objects."

Moved by the Lord Chief Justice of England, seconded by Mr. Thomas Raleigh—

(3) "That the Lord Chancellor be the first President of the Society."

These resolutions were the origin of the Society. Some further explanation of its objects, however, may be needed.

The services of those who are interested in different parts of comparative jurisprudence will be made use of. In India alone, which is at once, to cite Sir Henry Maine's language, "the great repository of verifiable phenomena of ancient usage and ancient juridical thought," and the scene of some of the most interesting modern experiments in legislation, is a limitless field for work such as the Society seeks to promote. There ancient and modern Codes co-exist. In customs and usages, still observed, are legal conceptions of which in the Western world are only obscure traces; and the meeting of several diverse systems of law has given rise to problems akin to those which in the decline for the Roman Empire arose from the contact of its law with the customs and laws of other States.

Here it may be pointed out that in no modern book is there an adequate treatment of the systems of law in force in the British Empire. The first and only edition of Burge's "Commentaries on Colonial and Foreign laws" is dated 1838.

Little can be done without co-operation in all parts of the Empire. It is intended to establish branches in the different colonies and possessions. From these branches valuable suggestions may be expected. With them, in great measure, must rest the success of the undertaking. It is desired to enlist the aid in particular of the Governors, Chief Justices and Judges of our colonies, of Chambers of Commerce throughout the Empire, of the Inns of Court and Incorporated Law Societies, of the Universities, of the Diplomatic and Consular Services, and of the Bar Associations and Statute Revision Commissions in the United States.

Probably the work of the Society would be advanced by holding from time to time conferences. In Germany, Italy, Austria, and Switzerland, representative meetings of lawyers and jurists annually take place. At these meetings are discussed questions of interest to the legal profession and the public. It is no disrespect to existing associations to say that hitherto no meetings, with the objects here indicated, have taken place in England, or in any part of the British Empire; and it is believed that the utility of the new Society would be recognised, its objects would be shewn to be not merely academic but practical, if conferences were periodically held for discussion of legal matters affecting the whole Empire.

The information collected by the Society will be edited, and published in a concise and intelligible form, for the use of members.

The annual subscription will be £1 1s., payable to the Society's Bankers, Messrs. Child and Co., 1, Fleet Street, E. C., or to either of the Honorary Secretaries, to whom also any communications as to the Society should be addressed. A donation of £10 10s. will entitle to the privileges of life membership.

So soon as the Society has received sufficient support, it is proposed to apply to the Board of Trade for a license to incorporate it under Section 23 of the Companies Act 1867.

London, May 1895.
